

# CREATING FOOD FUTURE.

... creating food future

The expert for micronising, separating and mixing.

## Heiss MSP is ...

- ... an owner-managed family-held company with more than 300 years (!) of experience in processing vegetable raw materials.
- ... specialized in micronising (fine grinding), separating and mixing of powdery raw materials.
- ... equipped with a unique technology center.
- ... your competent partner for micronising.
- ... focused on vegetable raw materials which are 100 % gluten-free.
- ... well-known as development partner as well as contract manufacturer.
- ... fast and flexible.
- ... active in food business, cosmetics and pet food.

## Heiss MSP stands for ...

Heiss Modern Special Products. For you this means:

### **H = Highest quality for you.**

Heiss MSP is certified **IFS-Food-** and **BIO**.

### **E = Engineering.**

Heiss MSP gives you support with the development and evolution of your products.

Therefore we have built a unique **Technologie-Center**.

### **I = Innovative ideas for your business.**

„**creating food future**“ is more than just a claim for Heiss MSP. We are bringing these values to life every day. You can always count on our highly motivated and skilled staff.

### **S = Speed.**

Being faster than your competitors is the No. 1 rule of success? That's great. With Heiss MSP you can count on **short communication channels** and a **pragmatic working relationship** in combination with **careful processing** and a **high implementation speed**.

### **S = Specialisation.**

Heiss MSP is focused mainly on **vegetable raw materials**. This whole portfolio of vegetables is gluten-free.

### **M = Micronisation.**

If you are looking for micronised/fine-grinded raw materials with a degree of fineness up to **5 µm** (depending on product), then you will find those at Heiss MSP.

### **S = Service at premium level.**

All the members of team Heiss MSP are involved in the process of customer care self-responsibly. CEO and owner Michael Heiß guarantees for outstanding service with his name.

### **P = Power Production.**

Heiss MSP not only creates and produces its own products, but is also a well-known **contract manufacturer** for micronising, grinding, separating and mixing of your raw materials.
